

Anil Uyar

Cybersecurity Analyst | Junior Penetration Tester | IT & Software Development

Istanbul, Kadıköy, Turkey | iletisim.aniluyar@outlook.com | linkedin.com/in/aniluyar | www.aniluyar.com.tr

PROFESSIONAL SUMMARY

Cybersecurity Analyst and Junior Penetration Tester candidate with hands-on experience in vulnerability assessment, security analysis, penetration testing, and digital security consulting. Holds a bachelor's degree background in Information Systems and Technologies, supported by an associate degree in Information Security Technology with a focus on cybersecurity.

Gained practical experience through freelance cybersecurity consulting and a cybersecurity internship at ÖLÇSAN Teknoloji, working on web and network security, vulnerability scanning, account security, risk mitigation, and preventive security measures. Skilled in Kali Linux, Nmap, Burp Suite, Wireshark, network security fundamentals, ISO 27001 awareness, reconnaissance, enumeration, and web application security basics.

In addition to cybersecurity, has a technical foundation in software development, programming fundamentals, database systems, web technologies, API fundamentals, mobile app fundamentals, and AI-assisted development. Flexible to work in cybersecurity, software development, junior developer, IT, or technical support roles. Detail-oriented and analytical, with strong problem-solving, communication, teamwork, client management, and continuous learning skills.

CORE SKILLS

Cybersecurity: Kali Linux, Penetration Testing, Vulnerability Assessment, Reconnaissance & Enumeration, Network Security, Web Application Security, Account Security, Digital Security Consulting, ISO 27001 Awareness

Security Tools: Nmap, Burp Suite, Wireshark, Kali Linux, VirtualBox, VMware

Software Development: Python, C#, Java, SQL, Database Systems, Web Technologies, API Fundamentals, Mobile App Fundamentals, Data Analysis Fundamentals

Tools & Productivity: GitHub, Visual Studio Code, Windows, Linux, Basic Networking, Technical Documentation

AI & Productivity: AI-Assisted Development, Advanced AI Tool Usage, Prompt Engineering, AI-Based Problem Solving, Code Debugging with AI Tools

PROFESSIONAL EXPERIENCE

Freelance Cyber Security Consultant

Freelance | Remote | 2023 - Present

- Provided cybersecurity consulting services to small businesses and individual clients through freelance platforms and local networks.
- Specialized in social media account security, account recovery, website security setup, and personal computer protection.
- Assisted clients in securing compromised accounts and implementing preventive security measures.
- Conducted basic security assessments and applied practical solutions to mitigate risks.
- Delivered tailored security solutions based on client needs while strengthening overall digital security posture.
- Developed strong problem-solving, communication, client management, and digital security consulting skills.

Cyber Security Intern

ÖLÇSAN Teknoloji | İstanbul, Turkey | Aug 2023 - Sep 2023

- Completed a cybersecurity internship focused on penetration testing, network security, and information security principles.
- Participated in identifying and analyzing system vulnerabilities using security assessment tools.
- Gained hands-on experience in web and network penetration testing, vulnerability scanning, and basic exploitation techniques.
- Contributed to improving system security by assessing risks and recommending mitigation strategies.
- Served as a team leader and presented project outcomes and technical findings.
- Received training in ISO 27001 standards and ethical hacking methodologies.
- Key tools: Nmap, Burp Suite, Wireshark, Kali Linux.

EDUCATION

Bachelor's Degree in Information Systems and Technologies

İstanbul Okan University | İstanbul, Turkey | 2024 - Present

- Admitted directly into the third year through the Vertical Transfer Examination (DGS) after completing a related associate degree.
- Focus on information systems, cybersecurity, software development fundamentals, and technology management.

Associate Degree in Information Security Technology (Cyber Security)

İstanbul Bilgi University | İstanbul, Turkey | 2022 - 2024

- Specialized in cybersecurity fundamentals and information security.
- Completed coursework in network security, ethical hacking, security analysis, and related technical topics.
- Qualified for DGS placement into the bachelor's program.
